Eurekfrost provides logistic services for food transport – either for local distribution or international transport. We strive to meet our customers' wishes.

We can offer transport handling with our own modern fleet of vehicles as a pickup and delivery service. This includes shuttle service to the central storage areas in the vicinity.

The punctuality and integrity of our goods are the main focus of our quality service – and we provide that quality service 24/7.

We're refrigeration experts

with us, you'll stay cool

**Company**

We're refrigeration experts - with us, you'll stay cool.

Our many years of experience in deep-freeze warehousing provides assurance that you have the right partner with Eurekfrost. We store you goods properly and professionally at any temperature; regardless of if that means refrigerated, frozen or even flash-frozen.

You can also take advantage of the services provided by our commissioned storage facilities. We process your goods in a fast, flexible and cost-effective manner – just like you want it. Give us a try- we're there for you.

Skilled refrigeration, freezing and storage. With an extensive array of services, we offer our customers a first-class logistics platform in Memmingen (at the German, Austrian, Swiss border triangle).

With our services, we fulfill your individual customer requirements from commissioning to packaging and repackaging – we provide total warehousing.

The most modern storage technology and "custom" IT solutions make it possible for us to offer all types of cost-effective services. Prove it to yourself; we'll be happy to provide consultation – flexible, knowledgeable and reliable.
